

Rain Barrel Communications

Speaking the Language of Development & Social Justice

Quality Writing, Editing, Speech-writing, and Reporting

Producing copy that conveys your message clearly and convincingly ... in many languages

Do you struggle to produce strong, vibrant and **accurate** copy in a timely fashion? Rain Barrel Communications provides customized writing that will get the attention of your customers, donors, decision makers, stakeholders or other groups.

What Rain Barrel can do for you

Whether it's an annual report, a field survey, an op-ed, a nuanced speech or a conference report, we provide top talent to produce sophisticated policy briefs for experts or heartfelt reports from the field for broader audiences. In other words, we listen carefully to what you want and then write new text or edit existing drafts to meet your needs. From one-page summaries to 60-page annual reports, our experienced writers, editors, proofreaders and rapporteurs cover a wide range of print and digital products.

Most of our writers are fully bilingual, many are trilingual or have even more languages. Working from documents in other languages or in speaking with your key informants, we craft readable documents for print publications, your website or your social media.

Several of our Associates are expert rapporteurs, providing detailed coverage of meeting proceedings and precise and timely summaries of workshops, seminars and conferences. They have extensive experience with the United Nations system as well as international NGO and government proceedings.

We have access to talented graphic designers who can transform your words with designs that stand out, whether on the Web or in print. We can start from scratch or untangle an overwrought draft. We have earned a reputation for producing documents that are accurate, clear and reader-friendly – and on time.

We produce copy in English or your home base's language.

We never use one-size-fits all approaches; we work with you to meet the specific needs of your organization and audiences.
